Sergie & crew —

I just wanted to let you know

how impressed myself & family are with your work! The patch replacements are seamless! we can not tell where the original wood ends & the new begins. We appreciate your teams professionalism & extra hard work - staying late to finish earlier. Not that I would have expected less but hard workers that are honest & do quality work are hard to come by these days. You have exceeded our expectations. Thank you for honoring your original quote. Please add me to your list of references as a possible contact. →

Kindest regards to you & your  
Katie crew,
